Experience

Alwrite, Software Developer

Mumbai, India

Lockton Insurance (enterprise insurance workflow platform)

June 2024 – Feb 2025

9 months

- Developed scalable MEAN stack platform for Lockton Insurance workflow automation and policy lifecycle management
- Improved API performance using Redis caching, indexing, and query optimization
- Deployed production system on AWS EC2 with high availability and uptime-focused architecture

Bigiota Analytics, Software Developer

Mumbai, India

HDFC ERGO (KYC verification & claims processing system)

July 2023 – Oct 2023

4 months

- Built secure REST APIs for HDFC ERGO KYC verification and claims processing system
- Implemented real-time claim tracking improving transparency and user experience
- Automated backend workflows using cron jobs and SFTP-based enterprise data pipelines

Niveus Solutions, Software Developer

Mangalore, India

ICICI Bank (digital onboarding & account opening platform)

Jan 2022 – Feb 2023

1 year 2 months

- Developed high-scale backend services for ICICI Bank digital onboarding platform
- Improved system reliability using unit/integration testing (Jest, Mocha, Chai)
- Containerized applications using Docker for consistent multi-environment deployments

EXiTS Group, Software Developer

Mumbai, India

CRM system & ecommerce platform

Apr 2021 – Dec 2021

9 months

- Built CRM system for client lifecycle management
- Developed scalable REST APIs for food ordering platform
- Automated data extraction pipelines using Puppeteer and Cheerio

Education

Post-grad **Mumbai University**, Master of Computer Applications (MCA)

Mumbai, India

July 2018 – May 2021
